

Cloud Solutions

Your One-Stop shop
for cloud services

HOSTED EXCHANGE

A hosted enterprise-grade solution

Our complete communication and collaboration solution features all the essential tools your customers need to boost their productivity: email, web portals, online backup, all offered in a secure environment. With our mix-and-match plans, you have the flexibility of building your own plans and benefiting from our included migration and support.

- Unlimited mailbox storage
- Office Apps, SharePoint, Lync and Online Backup
- ActiveSync, resource mailboxes and public folders
- 99.999% availability guarantee
- Optional email encryption and archiving

OFFICE 365

Powerful business productivity

Get more from Office 365 ...

- Word, PowerPoint, Excel, Outlook, OneNote, Publisher
- Office Online & Desktop
- 50GB mailbox
- 1TB cloud storage

PERFORMANCE CLOUD

Access all the compute power you could ever need in minutes

Our team of experts worked hard to build the industry's fastest and most leading-edge cloud servers. You can provision high-performance virtual servers and scale up/down resources in just a few clicks.

- Benefit from the best performance in the industry
- Scale processing, memory, storage, bandwidth at any time with a few clicks
- Pay only for what you use, when you use it
- Avoid complex infrastructure planning or architecting nightmares
- Replace aging hardware with cutting-edge technology

Cloud Servers

- Fastest cloud servers on the market
- Enterprise-grade infrastructure
- Fully managed or unmanaged

Cloud Databases

- Microsoft SQL Server 2014
- Enterprise database

HOSTED SHAREPOINT

The agility of the cloud, the control of an in-house solution

Our SharePoint Private Cloud hosting solutions help you decide what's most important: cost-savings and services, or server control and customization. You also get to decide how much platform management you delegate to us.

- Manage your clients' SharePoint environment, or let us take care of it
- You choose between 99.9% - 99.999% SLA uptime
- Build SharePoint in a dedicated, shared or mixed environment
- Eased project management with centralized and organized content

EMAIL COMPLIANCE

A set of solutions to help your clients meet HIPAA, SOX and GLBA requirements

Create an environment that fully meets all applicable industry standards. As your expert business associate partner, we will help you build solutions that meet your customer's compliance needs.

- Data Leak Prevention
- End-to-End Encryption
- Email Archiving

ONLINE BACKUP

A full environment solution

Online/local backup & recovery service backs up your full environment, safeguarding it with 256-bit AES encryption on a proven infrastructure with guaranteed bandwidth and connectivity.

- Incremental backups
- Workstation and server backup
- Unlimited versioning
- Easy access and restore

MANAGEMENT PORTAL

Our intuitive web-based partner portal gives you the functionality and control you need to get your cloud business going in no time. Oversee the full range of your services in minutes with easy, hands-on control and tight security. Easily build your customer's cloud environment, provision services, and manage your accounts, all in one easy-to-access location.
